

Protektor Pro

Digital Guard Tour
System

What can it do for you ?

- **Make your Manned Guarding Team more vigilant**
- **Know in real time if any events happen at the site under your control**
- **Keep an eye on multiple sites on your laptop or smartphone**
- **Set up all monitoring systems remotely without any physical contact.**
- **Actionable and accurate data is available to you 24/7 to help you make better decisions.**
- **Know where you are vulnerable from the Security perspective and allows you to recalibrate accordingly**

How does it work ?

- Uses QR Codes to ascertain location
 - Uses GPS data to confirm location.
 - An android device is used to scan the QR code and transfer information to the Cloud
 - Data is processed on the dedicated Cloud Servers
 - Processed Data is available on your Smartphone / PC in real time
-

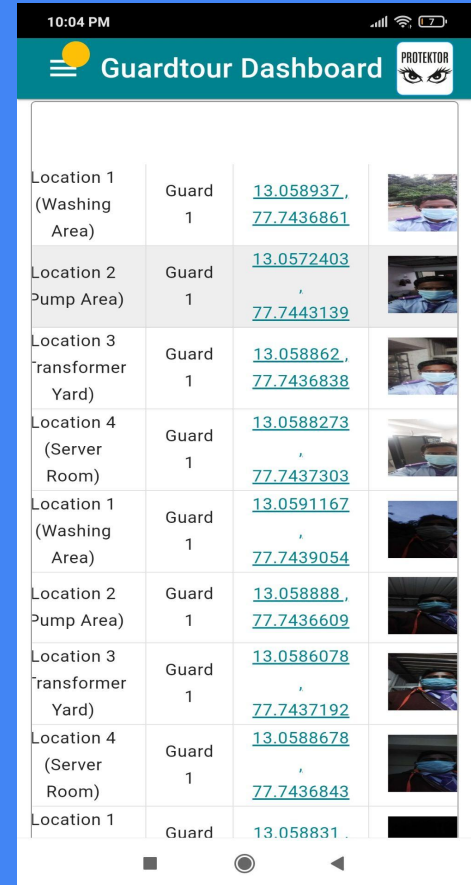

What does the Guard have to do ?

Stay alert and awake and patrol the site as instructed.
Simple to use.

What will the Security Manager get to see ?

- Time Stamp
- Location description
- Photograph of guard
- GPS coordinates.

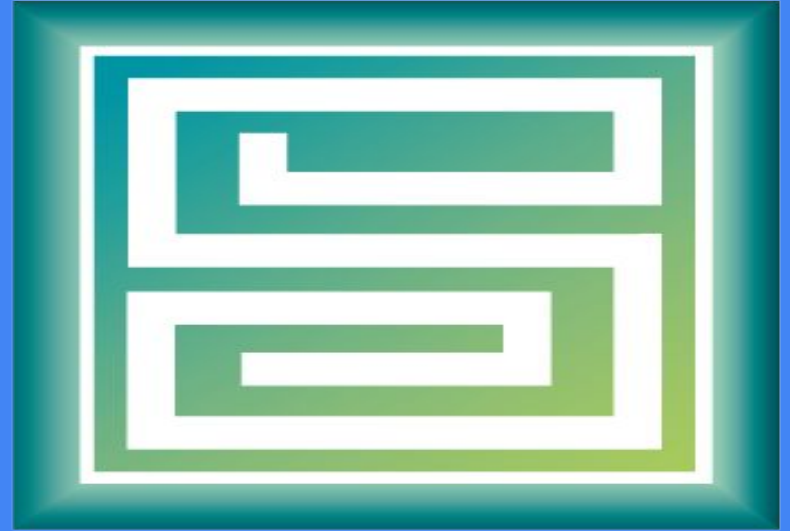

The screenshot shows the Guardtour Dashboard mobile application interface. The top bar displays the time 10:04 PM, signal strength, Wi-Fi, and battery icons. The dashboard title is "Guardtour Dashboard" with a "PROTEKTOR" logo featuring a stylized eye. The main content is a table listing guard locations and their details.

Location	Guard	GPS Coordinates	Photograph
Location 1 (Washing Area)	Guard 1	13.058937, 77.7436861	
Location 2 (Pump Area)	Guard 1	13.0572403, 77.7443139	
Location 3 (transformer Yard)	Guard 1	13.058862, 77.7436838	
Location 4 (Server Room)	Guard 1	13.0588273, 77.7437303	
Location 1 (Washing Area)	Guard 1	13.0591167, 77.7439054	
Location 2 (Pump Area)	Guard 1	13.058888, 77.7436609	
Location 3 (transformer Yard)	Guard 1	13.0586078, 77.7437192	
Location 4 (Server Room)	Guard 1	13.0588678, 77.7436843	
Location 1	Guard	13.058831
