QR CODE

A laminated Printout of the QR code should be placed at an easily accessible, and well illuminated Check Point at a height of 150 cms

An android smartphone with the Protektor Pro app downloaded onto it will be used to scan the QR code to validate location

ANDROID PHONE

DASHBOARD

You can view it on a Personal Computer or a Smartphone. It allows you to monitor the performance of your Guards on Patrol Duty in Real Time.

Shift: All / First shift / Second shift / Third shift

Frequently Asked Questions

1. What does the Protektor Pro Guard Tour System do ?

A. The Protektor Pro Guard Tour System maps the presence of your Guards on Patrol Duty at the various strategic locations where the QR codes are placed. It allows you to design their patrol routes as per your risk perception. It also empowers the Guards to provide actionable real time feedback in images and text.

2. How is it different from other Guard Tour Systems ?

A. Protektor Pro uses the internet to provide you information in Real Time. It also provides you with the photographs of the Guards, which acts as a deterrent to proxy punching. The feedback feature enables the Security Manager to recalibrate the Security Response if necessary

3. What are the benefits to using Protektor Pro Guard Tour System at my location?

A. Protektor Pro encourages compliance, and this holistically improves the performance of your Team of Security Guards who patrol your campus.

4. Do we need to Buy Hardware or Software ?

A. Protektor Pro Guard Tour System is provided as a " Managed Service". There is no investment in Hardware or Software. What you pay is a Monthly Fee towards the Data provided.

5. How does Protektor Pro Guard Tour System work ?

A. The android smartphone acts as a QR Code scanner thereby registering the Time Stamp and the Guard Identity at a specific Check Point

6. Would the WiFi of our facility be used for the Protektor Pro Guard Tour System ?

A. No. The Protektor Pro Guard Tour System does not involve tapping into the wifi used at the facility.

7. Would any personal data like names, Aadhar Card details, Biometric data, telephone numbers have to be provided for us to use the Protektor Pro Guard Tour System ?

A. No. No personal data of any kind is required

8. What will we need to provide from our end to the Service Providers of the Protektor Pro Guard Tour System ?

A. The Protektor Pro Guard Tour System requires good internet connectivity for optimum efficiency.

9. How much do I pay for this "Managed Service" ?

A. You only pay for the data provided , which depends on the number of Guards / Shift.

10. How long will it take to get the Protektor Pro Guard Tour System operational at my campus?

A. The Protektor Pro Guard Tour System can be operational within 7 days.
